Great Basin Incident Commander Conference Call Agenda 2017

Date: Sunday, July 16, 2017

Note taker: Gina Bald

GB MAC/GACC Coordinator:

Agenda/Incident Commander Discussion Points: **Summarize the following in 4 min or less:**

- Fire Size / % contained / # of people / Cost to date
- Significant changes since the last 209
- BRIEF fire synopsis /Critical Incident Information (use **Directional** vs DIVS's)
- Political Issues / Community Meetings
- Closures / Evacuations / Public Safety Issues
- Major Safety Concerns / Injuries / Accidents
- Critical Resource Needs
- Resources Available to Reassign/Share/Demob

Predictive Services:
Basil

Drier air will begin to make its way into the western fringe of the Great Basin on Sunday, pushing storm coverage to the south and east. The main areas of concern for dry lightning on Sunday are northern Nevada, northwest Utah and southeast Idaho. Storms will also develop further to the south and east, but with deeper moisture in place will be mostly wet. On Monday, the focus shifts to the potential for gusty winds and low relative humidity across western Nevada. By Monday afternoon, wind gusts are expected to be in the 25 to 35 mph range, though gusts to 40 mph are possible in areas. This is particularly concerning due to the fact that dry thunderstorms are forecast for this area today and tomorrow. Dry lightning followed by low relative humidity and gusty winds in an area that has high fuel loading could lead to large fire growth. Gusty winds are expected again Tuesday across western Nevada, though speeds will diminish somewhat. As the dry air continues its eastward progression Tuesday, storm activity will be confined to far southeastern Utah and the eastern portion of the Arizona strip. Models suggest that moisture will surge northward into the far southern end of the Great Basin on Wednesday and continue to march northward through late next week, bringing a return of more widespread afternoon thunderstorm activity.

GBCC Update: Gina Dingman

- Moderate IA
- 28 New fires for 3684 acres
- Large Fire Growth: 80000
- Teams: 2 T1, 2 T2 , WY T3 in staging at TWF
- Aircraft: 8 AT; 4 Scoopers; 26 SEATs, 3 LP, 10 T1 Helo: 0 available, 12 T2 Helo: 1 available in ID; 23 T3 Helo: 16 available for IA
- 23 Smokejumpers across 4 Bases

Appendix 7

	<ul style="list-style-type: none"> Crews: 18 T1: All committed; 42 T2IA (Next 3 days, 11 timing out): 6 available; 17 T2: 6 available
GB MAC: Dennis Terry	Scrambling to fill IHC and aircraft orders. Appreciate heads-up on releases. 2-3 new starts late yesterday to be moved to priority list as we gather intel.
1 Fire: Long Valley IC: Fogle Report: Nobles (T)	63046 /24%/ 533 / \$3.3M <ul style="list-style-type: none"> Change from 209: Fire Spread – 12000 acres Active throughout the night towards communities and Tribal land Political Issues: Tribal lands, utility infrastructure, communication site Closures: OHV Area Evacuations: Rancho Haven, Grass Valley Safety Issues: Extreme Fire Behavior, steep terrain, hot weather, poor access Critical Needs: 3 T1 Crews, 6 T6 Engines, maintain current aircraft Working on setting up Mobile Retardant Plant
2 Fire: MM155 IC: T3 Uhlig	15500 / 15% / 68 / \$600000 <ul style="list-style-type: none"> Change from 209: Pushed downhill with winds Structure Protection Group through the night Voluntary Evacuation of Grass Valley. Shelter set up. Burned over Ridge. I-80 secured. Retardant effective Political Issues: Multiple large fires – public tired of fires Safety Issues: Extreme Fire Behavior, fire whirls occurring everywhere Critical Needs: 1-2 T1 Crews, bolster Structure Protection Group, current aircraft Dennis Terry: Resources coming off Draw – will reallocate
3 Fire: Water Tower IC: T3 Robinson	300 / 0% / 0 / \$20000 <ul style="list-style-type: none"> 1 Mile E of Alpine, UT Active all night Evacuations: 25 Structures Very Political, Homes Critical Needs: 2 T1 Crews, T3 Helo
4 Fire: Snowstorm IC: Goff	11000 - 13000 / 5% /142 / \$500000 <ul style="list-style-type: none"> Active overnight Resource and Logistical support enroute Releasing local IA resources Safety: Travel and logistical support Hold all resources Critical Needs: T2 & T3 Helos for broad area Handling Snowstorm, Cornucopia, 4-Mile, Roosters Comb
5 Fire: Eastline IC: T3	130 / 0% / 109 / \$60000 <ul style="list-style-type: none"> 13 miles South of Rock Creek, ID Active, Group Torching
6 Fire: Bravo 17	23217 /38% / 65 / \$390000 <ul style="list-style-type: none"> East: Contained, patrol, mop up

Appendix 7

IC: Rohrer	<ul style="list-style-type: none"> • South: Secured line • West: Back down ridge, South and NW side • No suppression on West side – Military • North: Black line to Earthquake Fault Road and Highway 50 • Political: Fallon NAS infrastructure. Threat to Communication site alleviated • Safety: Fire Behavior
7 Fire: Cornucopia IC: Goff	1560 / 25% / 73 / \$50000 <ul style="list-style-type: none"> • Lined and mopping up
8 Fire: Roosters Comb IC: Goff	218380 / 90% / 362 / \$3.7M <ul style="list-style-type: none"> • Personnel re-distributed to other fires
9 Fire: Brianhead IC: DeMasters	71673 / 95% / 355 / \$34.7M <ul style="list-style-type: none"> • Day 29 of Incident • North: Holding, securing, picking up spots, good progress • Closures: FS trails • Safety: North end: steep, rocky, inaccessible • UAS Intrusion: Safecom files, individual identified • Resources Available: Demobing timed out resources; Putting back into the system those resources with days left • Transition to Home Unit T4 on Monday • Closeout: Panguitch HS on Monday at 1000 • Last Report for Team 7
10 Fire: Juni IC: T3 Brummond	2719 / 90% / 51 / \$75000 <ul style="list-style-type: none"> • 15 Miles WSW of Riddle, ID
11 Fire: Summer IC: T3 Basso	1250 / 80% / 201 / \$100000 <ul style="list-style-type: none"> • Transition to T4 • Leaving skeleton crew for mop up
Other Incidents	None
Date/Time of Next Call:	7/17/17 @ 0800 MT / 0700 PT
